

FORTRA

SOLUTION BRIEF

Alert Logic MDR® White-Glove Customer Experience

Cybersecurity Made Easy

Fortra's Alert Logic Managed Detection and Response (MDR) is the only solution that delivers comprehensive coverage for public clouds, SaaS, on-premises, and hybrid environments. Since no level of investment prevents or blocks 100% of attacks, you need to continuously identify and address breaches or gaps before they cause real damage.

For most organizations with limited expertise and a cloud-centric strategy, this level of security may seem out of reach. Our cloud-native technology and white-glove team of security experts protects your organization 24/7 and ensures you have the most effective response to resolve whatever threats may come.

Market-Defining Leader

Our objective is to eliminate the constant fear of the impact from cyberthreats and attacks. Through technology, intelligence, and expertise, we have provided meaningful security outcomes to more than 4,000 organizations worldwide. Alert Logic MDR's strength in securing the cloud gives you access to the very best automation, visibility, and compliance so you can confidently leverage all the benefits of the cloud.

Comprehensive Coverage

We're customer-obsessed with an unwavering belief that organizations must be both pre- and post-breach secured. Alert Logic MDR has you covered by maximizing the ability to detect and respond to threats while minimizing the impact of successful attacks.

Cloud Expertise

Intelligent Response Beyond Notification

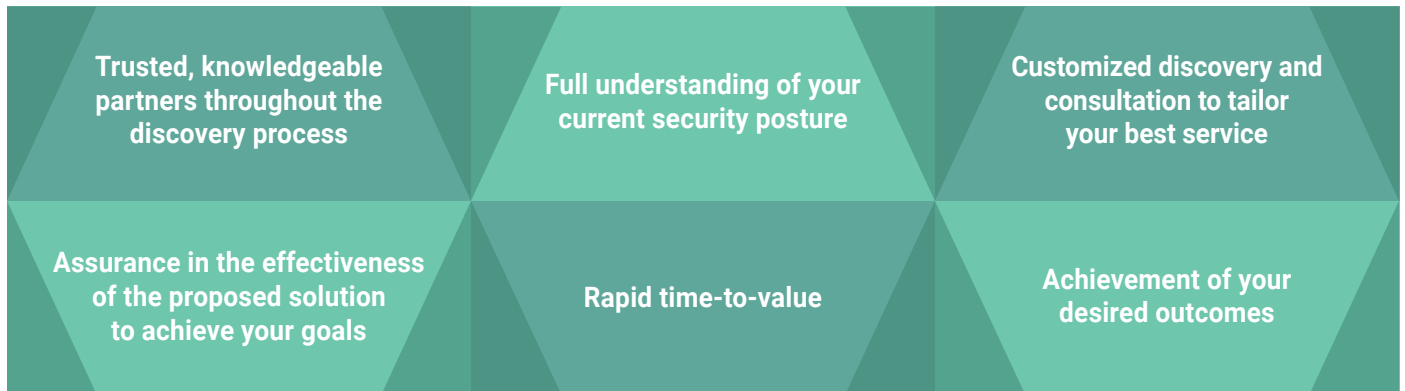

If a successful attack takes place, Fortra's Alert Logic Intelligent Response™ gives you numerous ways to reduce dwell time before any real damage impacts your business. Our combination of automated response and expert guidance is tailored to your specific requirements, such as group assets based on risk factors, a hybrid of automatic and manual processes when human approval is needed, and inclusion of API integrations into your existing tools. You determine the appropriate response and Alert Logic MDR makes it happen.

White-Glove Customer Experience

With Alert Logic MDR, cybersecurity tailored to your organization isn't a paid upgrade or separate feature. Our solution always is delivered at an elevated, personalized level providing exceptional customer experience and value.

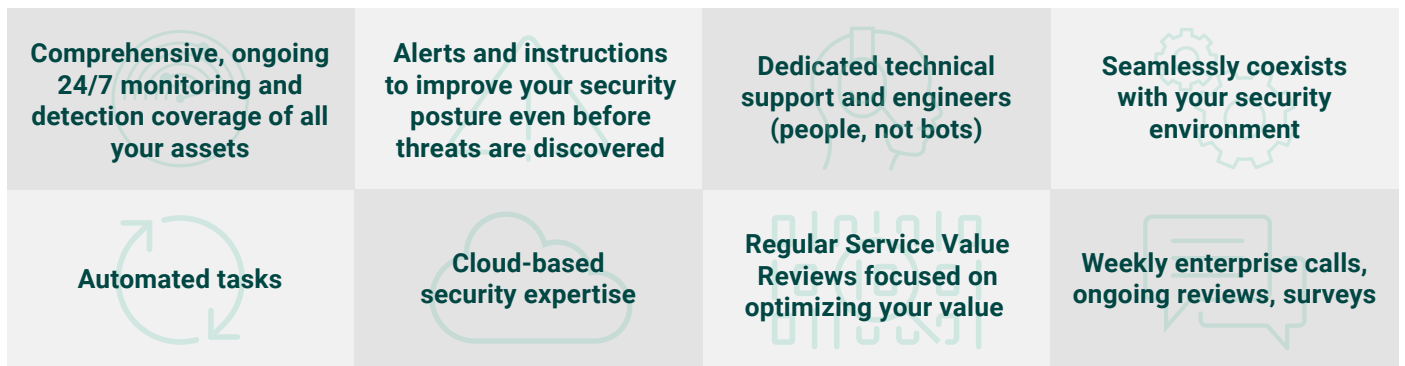

From the Beginning ...

A team of dedicated security and customer success experts works directly with you to develop the best cybersecurity solution for your organization and then guide you through the MDR journey.

Continuous Engagement

Your team of Alert Logic security experts serves as trusted advisors who are dedicated to your continuous success.
